

Hungarian Dermatology Society

American - Hungarian Committee

Established 2021

The goal of our committee is to facilitate interactions between dermatologists practicing in America and in Hungary. We aim to foster the following:

- online case discussions to share diagnostic and therapeutic tips and tricks and help resolve challenging cases in everyday patient care,
- teaching dermatology residents using online platforms and via exchange programs,
- support of collaborative efforts between dermatologists both in basic science, as well as in clinical research.

We welcome all dermatologists based in Hungary or in America to join our effort.
